

How to Measure

Please refer to the diagrams below. The letters in the left column correspond to the letters in the figures below.

A - Distance from left outer edge of cushion to right outer Edge	Width	20 Inches
B - Total distance from top to bottom of cushion	Length	38 Inches
C - Thickness is taken from the center of the cushion	Thickness	4.5 Inches
D - Distance from top of cushion to Hinge point where the top and bottom portions connect.	Hinged Distance	19 Inches

* This is an example for a chair cushion measuring 20" x 38" x 4.5" hinged at 19".
